

POSTER PRESENTATIONS

The Poster Presentation session will take place on Sat., March 4 from 15:45 till 18:00.

- Posters are to be mounted on Fri., March 3, from 11:00 till 15:30 (preferably as early as possible).
- Posters must be manned during the Poster Presentation Session.
- Posters should be dismantled on Sat., March 5, after the scientific program concludes at 15:30. The organizers are not responsible for posters that are not dismantled.

POSTER PRESENTATION LIST

P-001

Microparticles cause preeclampsia and embryonic growth restriction by platelet-mediated inflammasome activation in the embryonic trophoblast

S. Kohli, M. M. Al-Dabet, S. Ranjan, F. Bock, K. Shahzad, A. Aharon, B. Brenner and B. Isermann

P-002

p45-NF-E2 regulates syncytiotroph formation in human placenta by modulation GCM-1 post translational modifications

S. Kohli, J. Hoffman, M. M. Al-Dabet, K. Shahzad, A. Aharon, B. Brenner and B. Isermann

P-003

Association between venous thromboembolism and assisted reproductive technologies: Data from the RIETE Registry

P. Di Micco, A. Blanco Molina, D. Colaizzo, A. Fontanella, M. Amitrano, F. Dentali, E. Grandone M. Monreal for the RIETE Investigators

P-004

Age-related risk of venous thromboembolism in women with antithrombin deficiency

A.L. Marshall, J. Perez Botero, D.J. Crusan, T.M. Petterson, J.C. Guenther3, A.V. Chintakuntlawar, R.K. Pruthi, A.A. Ashrani, MS, J.A. Heit, and M.S. Patnaik

P-005

Venous thromboembolism risk in pregnant women with antithrombin deficiency

A.L. Marshall, J.Perez Botero, D.J. Crusan, T.M. Petterson, J.C. Guenther, A.V. Chintakuntlawar, R.K. Pruthi, A.A. Ashrani, J.A. Heit and M.S. Patnaik

P-006

Composition of Soluble Fibrin Monomer Complex in Plasma of Patients with Ischemic Stroke

N. Shabanova, T. Katrii, O. Savchuk

P-007

Prolonged low-molecular-weight heparin use during pregnancy and subsequent bone mineral density

P. Galambosi, V. Hiilesmaa, V.-M. Ulander, L. Laitinen, Prof A. Tiitinen, Prof R. Kaaja

P-008

Intra-abdominal hypertension syndrome in the genesis of the thrombotic microangiopathy in pregnant women with pre-eclampsia

E.M. Shifman, D.V. Marshalov, I.A. Salov, A.P. Petrenko, A.V. Kulikov

P-009

Is obesity a risk factor for massive postpartum hemorrhage?

E.M. Shifman, D.V. Marshalov, I.A. Salov, A.V. Kulikov

P-010

Compress utilization as an objective marker to identify the fall of haemoglobin in vaginal deliveries

J. Tardif, R. Winikoff, C. Taillefer, M. David, D. Francoeur

P-011

TRAnexamic acid to reduce blood loss in hemorrhagic CESarean delivery: Therapeutic and pharmaco-biological dose-ranging multicenter randomized double blind placebo controlled study: TRACES trial methodology

AS. Ducloy-Bouthors, E. Jeanpierre, B. Hennart, AS. Baptiste, S. Giovannoni, I. Saidi, E. Simon, D. Lannoy, D. Allorge, A. Duhamel, S. Susen

P-012

Thrombin and plasmin generation as measured by a single well technique during haemorrhagic and non-hemorrhagic caesarean section: pilot study

AS. Ducloy-Bouthors, E. Jeanpierre, B. Hennart, AS. Baptiste, S. Giovannoni, I. Saidi, E. Simon, D. Lannoy, D. Allorge, A. Duhamel, S. Susen

P-013

Thrombin- plasmin generation in a well innovative method development: Effect of tranexamic acid concentration in vitro

AS. Ducloy-Bouthors, E. Jeanpierre, B. Hennart, AS. Baptiste, S. Giovannoni, I. Saidi, E. Simon, D. Lannoy, D. Allorge, A. Duhamel, S. Susen

P-014

Anything but typical: Recognising postpartum atypical haemolytic uraemic syndrome

R. Eslick, P. Motum, AM. Watson, D. Hsu

P-015

Association of FOXD1 variants with pregnancy failures in mice and humans

P. Laissue, B. Lakhal, M. Vatin, F. Batista, G. Burgio, E. Dos Santos, C. Buffat, AC. Sierra-Diaz, G. Renault, X. Montagutelli, J. Salmon, P. Monget, RA. Veitia, C. Méhats, M. Fellous, J. Cocquet, D. Vaiman and JC. Gris, *The Collaborative Group on Precision Medicine in Pregnancy-related Diseases*

P-016

Risk factors of stroke and venous thromboembolism in association with combined oral contraceptives use

P. Dulíček; E. Ivanová; P. Sadílek; M. Beránek

P-017

High prevalence of mental disorders among patients with inherited protein S deficiency: A case report series

S. Hoirisch-Clapauch, A.E. Nardi

P-018

Amniotic fluid embolism presenting in the second and third trimester and subsequent pregnancy outcome

T. Cahan, M.D., H. De Castro, M.D., A. Kalter, M.D., M.J. Simchen, M.D.

P-019

Fetal and maternal morbidity associated with late preterm delivery due to preeclampsia

B. zion Shachar, M. Zadok, S. Mazaki-Tovi, M. Simchen

P-020

Effects of chemotherapy administration on thrombogenicity and angiogenic properties of extracellular vesicles obtained from breast cancer patients

A. Aharon, A. Rebibo-Sabbah, G. Barsela, D. Loven, S. Nusboum, H. Berkovich, B. Brenner

P-021

Artemis Study: Diagnostic management of symptomatic pulmonary embolism in pregnant patients

L.M. van der Pol, T. van der Hulle, C. Tromeur, F. Couturaud, A.T.A. Mairuhu, F.A. Klok, M.V. Huisman

P-022

Great discrepancies in the management of placental-mediated complications and thromboprophylaxis during pregnancy in the routine clinical practice; Results from the TEAM Project

A. Santamaría, E. Marti , A. Redondo Izal, I. de Diego, A. Rodriguez Huerta, P. Llamas, J. Rodríguez-Martorell, T. Canals , O. Martínez, M. Casellas, I.M. Ramírez, M.J. Gutiérrez-Pimentel, D. Tássies on behalf of the TEAM Project (Trombosis en el Ámbito de la Mujer) Investigators of the Spanish Society of Thrombosis and Haemostasis (SETH); Spain

P-023

The role of Thrombophilia Tests as part of the work-up study in Women with Recurrent Pregnancy Loss (RPL)in Assisted Reproductive Technology (ART) Unit

T. Canals, J. Herrero, P. Olivera, E. Johannsson, V. Pons, F. Bosch, A. Santamaria

P-024

Direct oral anticoagulation (DOACs) in women with active cancer and atrial fibrillation (AF): A good example of personalised anticoagulation

A. Varela-Magallon, E. Johannsson, P. Olivera, T. Canals, V. Pons, F. Bosch, A. Santamaria

P-025

Evaluation of haemostatic disorders in adolescent girls

V. Pons, P. Olivera, T. Canals, E. Johannsson, N. Vallejos, A. Varela, M. Constans, V. Cortina, F. Bosch, A. Santamaria

P-026

The prevalence of concomitant prothrombotic risk factors in women with thrombosis related to hormonal treatment (HT)

M. Ramirez Isabel, M. Quesada, M. Peinado, A. Santamaría on behalf of the TEAM Project from the SETH, Spain

P-027

Management of pregnant patients with beta thalassemia trait

L. Bevis, E. Burton, Q. Hill, E. Ciantar

P-028

Audit on the management of pregnant patients with heritable thrombophilias

L. Brooke, P. Peries Suriapperuma, E. Ciantar

P-029

Aplastic Anaemia (AA) with paroxysmal nocturnal haemoglobinuria (PNH) complicated by severe early onset pre-eclampsia - The complexities and challenges of management

S. Kakara, E. Ciantar

P-030

Venous thromboembolism (VTE) in patients with anti-neutrophil cytoplasmic antibody (ANCA)-associated vasculitis (AAV) - underlying prothrombotic condition in active disease?

A. Antovic, E. Svensson, O. Börjesson, A. Bruchfeld, I. Gunnarsson

P-031

A suspected torn soleus muscle as presenting manifestation of acquired haemophilia A: a diagnostic pitfall

Y. Van der Beken, C. Orlando, K. Fostier, K. Jochmans

P-032

Noninvasive prenatal detection of *int22h*-related inversions and point mutations in maternal plasma of hemophilia carriers by single molecule counting strategies

R. Kadir, J. Davies, B. Jradeh, K. Gomez, D. Pollard, I. Hudcová, P. Jiang, R. Chiu, D. Lo

P-033

Use of D-Dimers in the investigation of suspected venous thromboembolism in pregnancy

E. Millen, S. Pavord

P-034

Multiple impedance aggregometry (Multiplate®) in healthy women during normal pregnancy – a prospective and longitudinal study

L. Blomqvist, A. Strandell, F. Baghaei, M. Hellgren

P-035

May-Thurner syndrome and pregnancy

A. Kovač, M. Kozak

P-036

Lipoprotein (A) as a risk factor for recurrent miscarriage and the effect of low-molecular-weight heparin: An analysis of the ETHIG II trial

E. Schleussner, G. Kamin, S. Seeger and D. Petroff on behalf of the ETHIGII study group

P-037

Progesterone supplementation for preventing recurrent miscarriage - A secondary analysis of the ETHIG II trial

G. Seliger, G. Kamin, N. Rogenhofer, S. Ebner, B. Toth, M. Schenk, M. Henes, M. K. Bohlmann, T. Fischer, D. Petroff and E. Schleussner on behalf of the ETHIGII study group

P-038

Women's self-reported experience on LMWH injections for venous thromboembolism prophylaxis during postpartum

E. Le Moigne, B. Pan-Petes, C. Tromeur, C. Tremouilhac, M. Jacquot, G. Drugmanne, S. Jolas, Z. Alavi, K. Lacut, D. Mottier

P-039

Evaluation of bleeding complications in postpartum women receiving therapeutic anticoagulation

G. Côté-Poirier, N. Bettache, M. Mahone, F. Morin, A-M. Côté, Y-A. Bureau, N. Sauvé

P-040

Novel management of ITP resistant to IVIG and steroids

J. Byrne, V. O'Dwyer, K. Murphy

P-041

Long-term follow-up of laboratory markers and clinical and obstetric morbidity of women with obstetric antiphospholipid syndrome (OAPS)

C.E. Casali Congs, M. Garate Gonzalo, M. Zerga, A. Vicente Reparaz, C. Mahuad, F. Aizpurúa, M. Clavijo, A. Ventura

P-042

Planning the APPLE (AntiPhosPholipid syndrome Low-molecular-weight heparin pregnancy loss Evaluation) Clinical trial: An international survey of physicians

L. Skeith, T.S. Taylor, S.M. Bates, R.M. Silver, M.A. Rodger

P-043

Genes polymorphism FV leiden G1691A, FII G20210A, MTHFR C677T and PAI-1 5G/4G in patients with miscarriages and inherited thrombophilia - Experience from our clinic

G.M. Šošić, S. Sretenović, M. Varjačić

P-044
